

Dear FCC,

Regarding the above captioned RM matter, RM10806 which I support because it reflects the true spirit of Amateur Radio and the service which has been in place for 75 plus years. All other matters before the commission are counter productive and should be dismissed in favor of retaining licensing requirements as is.

Granting any petition will only further deplete the pool of skilled radio operators and the purpose of Amateur Radio as defined by part 97.1.

Thank you,
